Kapilendo Crypto AG becomes BLOXXON AG

Berlin, 23.02.2021. After the successful spin-off from Kapilendo AG in January, the financial technology company undertakes a next important step: the rebranding to BLOXXON AG. Under the new brand, BLOXXON AG reflects the growing importance of the Berlin-based FinTech as a leading Crypto-as-a-Service provider in Germany.

“The whole team is excited to continue the path taken more than two years ago to build a professional and market-leading Crypto-as-a-Service provider under the new brand BLOXXON. We are already successfully bridging the traditional and digital assets. Under the BLOXXON brand we will continue this path even more consistently”, says Jens Siebert, CEO of BLOXXON. As recently as February 2021, the company raised a seed funding in the amount of a seven-digit sum. “We are planning a bigger financing round for the second half of 2021 and are currently expanding the team in different positions”, continues Jens Siebert.

BLOXXON AG offers institutional investors and financial service providers product solutions and API-services for digital assets in the core business areas of custody (safekeeping of digital assets), tokenization (issuance of digital securities) and asset servicing (trading, reporting, access to trading venues). Kapilendo Custodian AG (provisionally approved §32 KWG crypto custodian) and Kapilendo Invest AG remain as subsidiaries.

BLOXXON AG

BLOXXON AG offers institutional investors and financial service providers product solutions and API-services for digital assets in the core business areas of custody (safekeeping of digital assets), tokenization (issuance of digital securities) and asset servicing (trading, reporting, access to trading venues). With its own licenses for crypto custody, brokerage, and financial portfolio management, BLOXXON AG is the leading Crypto-as-a-Service partner for investment companies, asset managers and banks. For corporations and asset managers, BLOXXON AG offers a one-stop shop

for tokenized security issuances. Issuers such as L'Osteria and the renowned banking partners like Hauck & Aufhäuser rely on the services of BLOXXON AG. Through its subsidiary Kapilendo Invest AG, BLOXXON AG offers wealthy private clients access to the first regulated asset management with crypto assets in Germany.
